HOW DO WE USE THIS RESOURCE?

With any of the following options, consider allowing students to take on some of the teaching responsibility, using student testimonies from their experience (what God is/has been teaching them), or having them lead in small group interaction. Take advantage of the unusual season and circumstance and forge new ground with giving away leadership to your students. We hope these ideas give you one you can run with, or might stir creativity as you create your own “at-home” YEC experience and combine “YEC” elements (preaching, worship, breakouts, bible study, strategic planning, games, and meal times) in any number of ways to create your “YEC” experience.

Wednesday Night Series (4-5 weeks)

Use the material to structure Virtual YEC according to your unique context and situation. If you cannot yet meet in larger gatherings, take advantage of pre-prepared material and use livestreaming, hangouts, and video conferencing to create a positive online YEC experience.

Revival (Sunday – Wednesday)

Take advantage of a church-wide gathering using the pre-recorded services, breakouts, and bible studies.

DNow Weekend

If your area is able to gather, consider using the content in a retreat setting around small group interaction and joint worship services using the homes of adult leadership in your church.

Use YEC Virtual anytime, anyway!

MISSIONS

Don't miss an opportunity to promote short-term or long-term missions with your students. Visit our Online Mission Center at gostudents.org. Also download missions information and service project ideas in the virtual YEC kit.
